**Come to the community picnic and learn how, together, we can stop the
gas station and Keep It Rural!**

Keep It Rural coalition (KIRC) members oppose the proposed gas station in rural Leon County on Crump Road near Miccosukee Road. The 6.5-acre parcel on Crump Road was purchased last fall. The farmland property had previously been in the Crump family for 100+ years. The new owner recently received preliminary approval to build a gas station, but the development application can be challenged and stopped. KIRC members continue to strongly oppose this development.
